Thankyou for your email and letter dated 27th Sept regarding existing Mosque and demolition to build new Mosque,
unfortunately on considering existing traffic and parking problems I object to this application. I request this application is refused.
Since the existing Mosque has opened they have built no efforts to control traffic that comes to Mosque, and also you may recall this is same application under same planning number, officers will be aware when they make application to planning they say they will comply with any order the Council impose but on considering their continuous behaviour after their previous applications on same site were approved and they made same promises they have broken their promises once Planning was granted . There is no one who can trust Mohaddis E Mission Mosque , however my main reasons for objections are excessive parking and risk to children safety .
