Numerous time I've had to complaint to the mosque committee about the blockages I face daily. They tell me to tell the council it's their problem. If permission is given they will say the same when the problems on traffic gets worse. Judging by how the council can not sort the problems to date how will they sort the problems is permission is given. Cat park simply cannot hold many cars and if parked stupidly it will lessen the spaces. The road is usually full of parked cars by local residents as each household has over 4 cars. We have a zebra crossing and yellow lines then we have Whiterose catering who has lorries coming daily. Now bating all this in mind the report by trs submitted they have missed out most of the mosque cars and that too as they were told not to bring students as report were being made to submit to council to show less cars and more space. That was only done for the report sake and to fool the council. I sure the planning officer for this will have documented evidence of violations and blockages to support the refusal of this application and dismiss the report.
