<p>We object to the proposed application 2023/62/91715/E, on the grounds that it will only make the current situation surrounding traffic violations, road blocks, trespassing and public safety (all of which is reported to you frequently) much worse than currently is.</p> <p>It is no secret to us, the mosque, Kirklees council and the general public that this site has caused a great deal of concern to many - something that we have had to live with on a daily basis. Evidence of this is constantly sent to the local council so that they too can see with their own eyes what is happening at this location as a result of the footfall of the mosque and the fact the traffic/parking cannot be controlled (all of which is currently on a single one floor building).</p> <p>This is not a park, or a vast amount of land. It is a limited strip in the middle of a residential community. It is not capable of accommodating these plans. Even though these issues prevail, and have not been dealt with over the years, it is surprising to see that expansion plans are still being submitted, which would obviously make worse the current problems we all face.</p> <p>The level of expansion (three floors) only indicates much more footfall within the same limited parking/walking spaces. As such, we oppose this application, and call to you the council to do what is right. Since you are unable to control the current situation, which causes enormous stress and aggravation to us and our business, it does not seem feasible that you make it worse by accepting these plans, at the expense of our suffering.</p> <p>Regards</p>
