Hi can I start by telling you that I am confused why the Mohaddis e Mission Mosque have applied for further Planning Permission, specially when they already aware about existing traffic problems on Ravenshouse Road which have been caused by their users and the Mosque for years have done nothing to stop this or even come to local residents and apologise. The Ddisturbance and traffic congestion we have every occasion the mosque users arrive at Ravenshouse Road. People park on drive ways and also block the road like the way guys have just been to football game and rush to leave. Yes I can understand when the Council dealt with this Mosque for the first time they migh had no knowledge about all these problems and as benefit of dought you have given them permission but please don't make similar mistake on this occasion. Can I tell you because of the Mosque traffic parking problems the highways had to put some yellow lines on the corner of 1 low road because people park on the edge of the Pelican Crossing on Ravenshouse road. Drivers been fined by the Counci and the Council had to send out Parking Enforcement officers. But the problem still continues and if they are to build the traffic problems will continue to rise. Do you know because of the Mohaddis e mission mosque how much money has the council wasted by putting yellow lines and sending out parking enforcement officers. Would this all happened if the mosque kept the control on the issues. I am concerned because if you the Councillors are to grant further permission and then we continue to complain it will be council fault because before you didn't know but please don't make the same mistake this time as you do know this time. Can I also tell you if as at present the Mohaddis e mission mosque can't look after a single storey mosque whow will they look after when they built a 3 Storey building and attract more users. As Council then don't blame the mosque and better is to refuse this application fullstop. Thankyou
