**Subject:** Mohaddis E Mission Mosque planning Application Number

Further to planning application number 2023/91715 at Ravenshouse Road Dewsbury Moor WF13 3QU.

Before making this new planning application I am not sure what the Mosque Management Members were thinking as this case presently stand.

This application is for 3 storey building but it should be refused, refused immediately and if the application goes to the planning Councillors then it should be refused.

Reasons are that the current Mohaddis E Mission Mosque has been running for nearly 12 years and in that 12 year they haven't managed to curtail the traffic parking problems and if they haven't managed to do with 1 floor building how will they with 3 floor building. They made 3 applications before and each application has been refused.

Since the Mosque has been running the cars have increased when they come drop and pick children and on Friday prayers the Ravenshouse Rd is blocked when Drivers park anywhere and go to pray.

Complaints have been made to mosque about the problems but they refused to do anything or even tell the worshippers not to block or park on driveways and on Zebra Crossing. The Council has visited and sent warning letters to the Mohaddis E Mission and no action was taken by the Mosque. It has cost Kirklees Council thousands in putting yellow lines and then to send Parking Enforcement Officers out to observe the Ravenshouse Rd all fault of the Mohaddis E Mission Mosque.

Because of the Mosque the Community race relationship is at broken stage. The pure piuse of

the Mosque role should be to integrate the Community but the things are opposite because of this Mosque.

Can I take this opportunity to point out to you Sarah that as you will know I have also copied the Highways Officer Karen North because I know how much effort she has put on to solve the Ravenshouse Rd. I can understand before when the planning was granted perhaps the planning were not expecting the severity of the problems but please as you know the record of the incidents associated with the Mosque can I request any decision that the planning make please take every thing what I have said in to account. Thankyou.
