I am in favour of the new building plan. This is because I have been a student at this institution for over 10 years and I have seen the amazing work that they have achieved over time. The community work that they have done has been amazing and incredible and through the extension of the building this will allow more individuals and youngsters like myself to be more involved. Personally I know many individuals that were going on the wrong path and due to this institution they have changed their lives around for good. I am aware that a few individuals have complaints regarding parking but it isn't an issue because the committee of this institution have provided a car park and keep a person outside during mosque time and prayer times to make sure that people don't block the road. This car park that they have provided has taken away the problem of any traffic issues. The committee are always there to make sure that nearby neighbours are not disturbed by the traffic situation and they encourage individuals to use the car park. If any individual does block someone's drive then the committee are the first ones to make sure that the individual has moved their car into a safer place where it won't cause any issues for anyone. I am 100% in full support of this extension plan and I believe this will only benefit the community more. I hope this is taken into consideration and the planning permission has gone ahead.
