<p>I couldn't help but read the planning statement submitted by the mosque.</p> <p>At Point 7 they themselves admit this application is far superior than any before. With that being said, it would attract lots of members from outside of this area. Who will deal with all that superior traffic attracted by this new proposal?</p> <p>4.8 of that same statement states that it would not cause any adverse traffic and parking or highways impacts, common sense says that is unrealistic and the mosque should wake up and admit that it would cause more damage and problems than there are now. The car park is already too small for a single story mosque already both are in use you may check with local councillors and the parking enforcement office who will have a full report and may I say they have not come out for months because they are fed up themselves of the constant violations on yellow lines and zebra crossing.</p> <p>They don't even have a remediation for the land contamination. They couldn't get the land contamination condition discharged from the previous application, how will they manage it on this bigger size building?</p> <p>They are living in a fantasy and need to wake up and solve the problems they have already caused before even thinking about extensions. The council should refuse this and not let it go to the planning committee which has over the years proved heavy woollen can't be trusted to make sensible decisions.</p> <p>This mosque should never have been given permission as this is not for the benefit of this community. They have caused division in this community beyond repair and in that some members of the heavy woollen committee played a part for years in approving plans that should clearly have been refused.</p> <p>Stop this mistake from being repeated and refuse this application. Parking and highways and the police can not handle the burden on Ravenshouse road as it is, stop putting everyone in these dangerous situations and refuse this application.</p>
