As a local resident and worshipper of this mosque since it was established, I am in full support of the expansion plans proposed. Yes we can all sit here and complain about traffic as the 11 incredibly similar (colluded?) complainees have suggested but I don't see the same people complaining when they're stuck in traffic on Huddersfield Road or Dewsbury town at peak times. Management and teachers take great care to try and direct traffic as best as they can but they cannot control how other human beings conduct themselves or behave poorly on the road. As an institution, it has grown from strength to strength improving the community and its surroundings, having a direct impact on community safety, cohesion and a reduction in crime rates in Dewsbury Moor. The establishment caters tirelessly to well over 350 students who study 5 days a week and staff are making the best use of the small space they have. The waiting list as a result of the top tier education is overflowing with parents banging down the door to seek acceptance for their children to attend here, but space constraints limit the further potential and growth this mosque can achieve, hence this application. Yes there might be other mosques in the area but why do 350+ children attend here and why is the waiting list in triple digits? I'll let you make an educated guess. Without making this a personal vendetta towards the mosque as the other negative comments have, I hope this application is considered with the positive FACTS at hand and not peer pressure from local negative community members Signed, a local resident that actually cares about the welfare of their community.
