The plan sounds very good and will help the community in positive ways. It has been a vital part of my life and has taught me many life skills. The parking issue was resolved roughly a year ago when the mosque had put their staff outside to monitor the way cars parked and directed cars in order to help traffic flow. The main issue is the shop next door as he parks his van and Land Cruiser making it hard for vehicles to exit the giveaway as it blocks the site of the driver and is a risk. The van and Land Cruiser can easily parked outside the shop rather than on the main road. The shops bin is always over flowing and is never managed properly. Hats off to the mosque comittee with putting up with all the hurdles that have come their way and using their initiative to overcome these hurdles in a professional and respectful manner by taking control.
