I strongly believe that the extension of the mosque should be approved. I have been a student of the mosque ever since it has opened from 2007 and now a regular user of the mosque. The mosque provides an excellent education for males and females. Apart from the education the mosque teaches its students good morales and prepares it students for the future to be good representatives of the public. The mosque invite highly respected islamic scholars to come to the mosque to teach its students and speak to members of the community. The mosque has been able to graduate students as Hafiz of the quraan and many students have graduated as Islamic teachers who now teach at the mosque.

Also before the mosque had opened in 2007 the anti social behaviour within the area was at a all time high. Since the mosque has opened to now the anti social behaviour has decreased significantly, The mosque invites young people of the street by having events within the mosque who are willing provide guidance and advice.

In regards to the traffic issue, i travel past the mosque from Monday to Friday every week between 5-7 and can confirm that the traffic is not a problem at all. Like every school and mosque in any area the rush will last 10 mins max. The mosque have made a one way system where parents drop there children and pick them up from the car park. The mosque has a traffic warden in place everyday to manage this.

The shops on that road are very easily accessible, there are 2 shops on that road which are a 5 minutes walk from each other and which are very easily accessible with vast parking available for both shops.

Overall this mosque has been the best thing to have happened in the area. Without this mosque the anti social behaviour in the area would have still been at a all time high. The mosque has taken children of the streets and provided them with a education not just about Islam but in general life. By having this extension, the mosque will be able to help the community even further by taking in more student's from all backgrounds and preparing them for a better future.
