

I have seen a lot of comments some in favour and some against the new application.  
I am against the new planning application.

My reason is simple

I am living in Dewsbury Moor and I am a Community Leader in Dewsbury Moor and I have a lot of influence in my Community and within the Council and the Police alike.

My family attends the Mosque.

On numerous occasions I spoke to and about controlling the traffic

COMES ON MOSQUE OPENING HOURS STANDS ON ROAD BUT  
NEVER MAKES OR TELLS DRIVERS TO PARK IN THE MOSQUE CAR PARK.  
PEOPLE BLOCK EVERY WHERE.

I spoke and told to

Speak nicely and tell drivers to park in the Car Park to drop and pick kids but he told me it is not his job to tell. The Police been out on calls and now the Council has put yellow lines and still no one cares.

Other thing is I am unfortunately very confused why they have made a new application when they know that they have massive problems on hand.

Highways Department has received complaints from residents. Because there are genuine problems if aren't then why would someone complain. The Police been out on so many occasions Is this good relationship ?

I am Community Leader who tried to help the Mosque and sort issues but they took no interest and I couldn't do anything.

Why would they need a big Mosque and apply for further planning when in fact they already had a planning permission to build a nice minimum size Mosque However there are Coal board conditions and they have not done anything about those conditions. Anyway that is something I've nothing to do with .

However just across the road there is a new purpose built Mosque in Pilgrim Estate and they are building another extension there in Pilgrim Avenue so why are the Mohaddis e mission mosque wanting to build a big Mosque when one already exists and it is open to all Multi Cultural Societies.

Finally I am not sure how the Council going to pass this application because unfortunately the Community relationship is so bad and at breaking point because the Mosque users come from far away and park on driveways and yellow lines and Junctions . Everyone is fed up.

I know the Councillors are someone people ask to help with problems unfortunately the Councillors are running away from there because I don't blame the poor guys they know the Mosque Committee are wrong and don't listen to anyone.

Its very shame.
