I have made multiple objections to this extension in how it will be detrimental to my property, already drains have been removed leaving my property with no access to drainage and sewage outlets, and our boundary markers have been removed without any kind of consultation.never mind the actual physical size of the proposed construction over shadowing our back garden and reducing the sunlight to our kitchen.on top of that the construction company have no idea of health and safety or proper worksite protecol.as you can probably tell I'm not a happy at all
