<p>Fears that this planning application going thru will lead to more houses in that area. The track is a public footpath, used by families children , hikers, residents n horses. The single track proposed will make this dangerous for the users of the last 6 decades Its not brown belt, its green belt and will disturb surrounding areas. Plenty of brown belt to use before destroying green belt areas The roads all ready struggle with vehicle capacity, where will the extra cars park in winter conditions in an already crowded area. How will large vehicles even fit up the the track.</p>
