<p>I am a frequent visitor to Marsh and feel that this application will add value to the area and the local buildings because it converts an unused space into a facility that will serve the local community well. The extension and outdoor space will be very welcome in a zone that needs uplifting. It will extend the time that I, and others, spend in the area. The gentle waft of fresh coffee and baking adds to the well-being experience of being in a safe and secure environment and is one of the reasons I travel to Marsh often. I think the design appearance and layout are very good and can only improve the neighbourhood and make a positive impact on the area which, hopefully, others will follow.</p> <p>It is my view that this application should be Permitted and Supported</p>
