**Subject:** FW: Extension of Hours - Application number 2023/91812 at location railway line and associated land between, Huddersfield and Westtown (Dewsbury)

**RE: Request to vary standard working hours at Huddersfield Station (Application Ref: 2023/91812)**

**HDM Recommendation - No objection**

A request has been received – Letter ref. 151667-TSA-00-TRU-REP-W-EN-001854, Dated 5<sup>th</sup> November 2025, to vary the agreed working hours for works at Huddersfield Station.

The request relates to:

1. Alterations to the scaffolding in the station roof;
2. Removal of the scaffolding from under the completed roof and above the temporary scaffold deck; and

3. The removal of the scaffold support towers from the station platforms (after the main scaffold deck has been removed).

The extended working hours are requested, to minimise Health & Safety risk to station users and therefore a proportion of these works will need to be undertaken outside of core working hours. The request seeks flexibility to allow these works to be undertaken at any time during the 24-hour day, between November 2025 – August 2026 inclusive.

The proposed extended working hours do not adversely impact on the safety or operation of the highway network and HDM have no objection to the request.
