Consultation Response from KC,
Lead Local Flood Authority

2023/91838 New Hall Farm, New Hall Lane, Overton, WF4 4RP

Installation of renewable energy generating station comprising ground-mounted photovoltaic solar arrays together with substation, transformer stations, site accesses, internal access tracks, security measures, access gates, other ancillary infrastructure and landscaping and biodiversity enhancements

Date Responded: 06/11/2023.
Responding Officer: Martin Stephenson
Responding Ref: 1

The site is almost wholly within Wakefield Council's area and the watercourses flow away from Kirklees, therefore there is no increased risk of flooding within the Kirklees area. Also, there are no significant flooding events reported with in Kirklees in the vicinity of the proposed solar farm.

The LLFA confirms that we have **NO COMMENT** on this application.
