

Dear Sir/Madam

I am writing to you regarding the planning application that has been submitted for the proposed development of 10 dwellings to the rear of Kingsley Avenue. Planning Application number. 2023/62/91907/W.

Following a review of the planning application I would like to show my support for this proposal.

The project-

- Addresses the need for local and affordable homes.
- Is in a great location with many local amenities.
- Will provide a greater sense of community cohesion.
- It will help to prevent crime and disorder(youths have been seen regularly gathering together in the vicinity)
- My family members who reside local to the area agree the proposal would be good for the community.
- It will help to alleviate the rats and mice surrounding these areas.
- It is unused land and a good proposal with many potential benefits.

I consider this application to be very important as it will greatly improve the area and local economy, in which new jobs will be created and much needed housing too. It will also alleviate any anti social behaviours by becoming a residential area.

Yours faithfully
