With reference to the above application, I would like to make a comment in favour of the proposed development of 10 dwellings to the rear of 18 Kingsley Avenue.

I was pleased to hear of this proposal and after studying the related documents online I'm positive this development would be a much needed addition to the Crosland Moor & Lockwood area.

I'm surprised to see so many negative comments about this from the local community, as I feel this would be beneficial to them in many ways. In particular, if the area is improved then house prices should increase. Please May I remain anonymous much appreciated, thanks
