<p>There seems to be numerous objections to the proposed development of 10 houses to the rear of 18 Kingsley Avenue.</p> <p>From reading the comments it appears that some objectors have taken matters into their own hands and are raising issues and coming to conclusions regarding Planning Legislation for which they have little or no knowledge about.</p> <p>May I suggest that these objectors leave the job of deciding whether or not the proposal is approved to relevant professionals and Kirklees Council instead of raising baseless arguments against it, for which they will gain nothing from. The comments on this planning application are becoming quite ridiculous now.</p> <p>I have never seen an application for such a small building development before which has so many objectors.</p> <p>There is obviously some problems with jealousy within the community and although parking on Kingsley Avenue can be an issue, this is something that could easily be resolved if the residents communicated with each other. Everyone in the community needs to work together to cut down congestion instead of arguing about a proposed small development which will only enhance the neighbourhood.</p>
