Hi, I would like to express my support for the above application, I was starting to get a little impatient waiting on a response from this proposal, however checking up on the amendments and improvements of the application, I can now understand why the wait. This planning application couldn't have come at a better time when there is a shortage of housing more than ever especially in the Thornton lodge area where 2 bedroom houses are in excess of £850 per month and are being snapped up straightaway not even giving others a chance. So it makes sense if there were more houses in this area and this application is meeting the current housing needs and demands. I understand the situation at the junction that has always been like that for many years but apparently residents have just woken up now and realised it's an issue. Locals in the area must use their own initiative and common sense not to block the junction, this is a lack of communication and basic road sense between the people in this specific spot. If the residents have noticed staff from David Browns parking on the street then you have a word with them or contact David Browns regarding this, it's a little strange putting it up on here. So bottom line is let's not blame the planning application for all our life's problems and all of the some what petty issues that funny enough have just come to life. (I would like to remain anonymous)
