Hi, Having previously detest this application last year all I can say now is that i fully support it. We have been looking to rent or purchase the right property in this area for some time now and have been coming across ridiculously high prices for properties that still need a good amount spending on them, so considering the current mortgage rates and interest, anyone in the right mind would rather put their bet towards a high quality new build and by looking at the plans these new houses fit the bill. This is very beneficial for potential buyers like myself and few others I know on Kingsley Avenue who have enquired and want to remain in the area. Previously the proposed plot of land has known to attract anti social behaviour during the years and also used as a dumping ground causing rat infestation. There is a severe housing shortage local and nationally and it seems anyone with an objection will just deny some desperate family the chance of a home. Last time there was an individual who was going around everyone's houses at midnight forcing them to sign a petition against this housing application, honestly people really need to get a grip there are much more serious issues going on than a small housing project.

I wish to remain anonymous
