<p>Why is this plan still being considered? It has been 2 years nearly with no updates only this up to date deadline. This does not seem right at all. Can someone get back to the public in regards to this who are having to deal with the stress over this. Its outrageous. As a community we have come together to discuss this and mostly objected. I dont understand where these supporting comments are coming from unless the proposer has been asking others who are not part of this community to put in false comments. Please can i ask the council that when these comments r looked at please make sure they have actually come from residents of Kingsley Avenue. I take note that ANYONE can be putting in comments by picking a random door number. Again i emphasise that these comments are looked into and false comments seem to be be put in.</p>
