<p>I believe this project would bring vital improvements to the area, and I would like to explain why.</p> <p>This area has been a hotspot for illegal activities like drug dealing. This makes it very difficult to live in peace as someone who suffers with mental health issues and severe paranoia. The neglected, overgrown state of the place makes it feel even more frightening. It's terrifying to think about the potential dangers, and I know I'm not the only one who feels this way. On a personal level, I have experienced burglaries, and I know that many other houses on this street have as well. I want to be able to feel secure in my own neighbourhood. It would be a relief to see a safe, well-maintained area where children can play outside without parents constantly worrying about their safety. A neighbourhood with new houses, families, and a sense of pride would not only improve the quality of life for current residents but would also provide a much-needed sense of security to everyone living here.</p> <p>This development is not just about adding more homes, it's about creating a positive environment where people can live without fear. I firmly believe that approving this application will help transform the area into a safer, more welcoming place for everyone.</p>
