Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	SOFIA JAVED
Site Address	24 BYRON GROVE DEWSBURY WF13 4QZ
Description of Development	TWO STOREY SIDE AND SINGLE STOREY REAR EXTENSION

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:
Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)
INCREASED INSULATION LEVELS AND LED INTERIOR LIGHTING
Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)
REUSE EXTERNAL ROOFING MATERIALS. LOCALLY SOURCED BUILDING MATERIALS
Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

FSC SOURCED TIMBER MATERIALS USE ON SITE
Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)
THE LOCATION OF THE EXTENSION HAS IMPROVED THE OVERALL THERMAL EFFICIENCY OF THE DWELLING BY ITS IMPROVED INSULATION. ROOFLIGHTS UTILISED TO ENHANCE DAYLIGHTING IN ROOMS TO REDUCE NEED FOR ELECTRIC LIGHTING
Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)
SOFT LAND SCAPE AREAS RETAINED
Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)
WATER SAVING WC AND SHOWER
Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)
NONE
Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)
USE OF HAND TOOLS INLIEU OF PETROL/DIESEL POWERED MACHINES WHERE POSSIBLE. DUST SUPRESSION ON CUTTING / GRINDING ACTIVITIES.
