<p>Comments made on behalf of Huddersfield Civic Society:- Huddersfield Civic Society support the principle of residential conversion which would seem acceptable and would at least get rid of the signage on the current premises. We do have some concerns over the size and design of the proposed extension. The listed building is ashlar faced with cornice and blocking course. There needs to be some further consideration to the details of the parapet and roof. We would suggest adding windows on the (new) east side which is proposed to be a blank wall and out-of-keeping with other surrounding listed buildings and very visible in the view of both pedestrians and drivers at the nearby mini-roundabout junction of Fitzwilliam Street with the start of New North Road (A629). Summary: good usage but design needs to be a high standard for a listed building at a visible location in a CA.</p>
