Dear Louise

## **The Network Rail (Huddersfield to Westtown (Dewsbury) Improvements) Order 2022**

### **Code of Construction Practice Part A: Request to vary standard working hours at Mirfield Station (Application Ref: 2023/91990)**

In compliance with section 3.1.3 of the Code of Construction Practice Part A, Network Rail is submitting this request to vary the standard working hours for works at Mirfield Station for your consideration.

The following activities are planned:

- Bored piling with station area – works are taking place under CoCP Part A - Midweek days / Saturday Nights under Rules of the Route working but also extended to Sunday daytimes 08.00 - 13.00 from 8 December 2024 to 31 January 2025.
- Excavating of new concourse (dig down from existing track level to road level (Station Road)) and installation of new access stairs from ground level to platform. Works includes week day evening and night time works (from 18:00 – to midnight), weeks commencing 7th and 14 December 2024 as well as Saturday nights mid-January to end of March 2025 (again 18:00 to midnight).

The following justification is provided in relation to the works above:

- There have been no complaints from any residents living adjacent to the station during the consented works to date;
- It will be beneficial to retain weekend working and continue with a controlled construction programme to meet future major possession requirements in the station without the need for any acceleration of the works.
- Carrying out works during night time will minimise impacts on rail station customers.

The Alliance has submitted a separate S61 application which has now been approved by Kirklees Council for these activities and therefore s.61 consent is in place.

Apologies for the late notice, I look forward to your response.

Yours sincerely

Pam Butler
