<p>I have already objected to this change of use application, however as I have been suffering ill health in recent weeks I have only just been leaving my home in recent days. There are not one notice for this planning permission anywhere on Marsh Gardens or surrounding roads, which I believe there should be by law. In addition only two of the flats in Marsh Court, which is directly effected by the traffic entering and leaving the premises, where sent letters regarding this change of use, the rest of the flats have not been directly notified. The rest of the residents of Marsh Court would have been totally unaware that the business were operating without the correct application to do so and would have missed this opportunity to object now the correct application has been submitted.</p>
