

we wish to add further comments to our previous objections in light of viewing the HolmeValley Parish Council Planning committee Meeting Video 5th February 2024. We have been informed of the result no objections by the Parish Council. We played the minutes as recorded by the video at the meeting on the 5th and are quite appalled by the remarks we heard. Cllr Colling expressed that as she knew the area she made her comments:

- 1) she comments 2 years
- 2) she remarks about Moorhouses
- 3) her statement was "This is all part of an evil plot"

our answers:

- 1) This appears to differ from the applicants time
- 2) We complained about 20 years ago to Moorhouses ourselves possibly for occasionally parking on Marsh Gardens and they rectified this problem immediately. They do not access or park on Marsh Gardens. Their entrance exit is Concord Street leading to Westgate. She is also unaware as to the outstanding application for houses in Moorhouses yard and also the fact that Moorhouses Transport has been sold.
- 3) We find this statement difficult to comment but feel it should be addressed by a committee of the Town Council in our view this comment is malicious, defamatory remarks verging on conspiracy without justification. We are not against councillors influencing other councillors. To sum up

- 1) is a lie
- 2) is a lie
- 3) evil plot?

At this point the councillor has got her facts totally incorrect in as much as we live at Marsh Gardens which happens to be a cul-de-sac. It is interesting that the bollards which we requested from the highways were placed 24 inches from the kerb on the footpath one only lasted a few weeks which has been replaced however this could very easily have been a child attending the school or another person visiting the surgery knocked down. This shows the fact of the dangers.

As regards the B2 to B8 we suggest that a highways official visits the area and looks at the problem, road width, crossing length of reversing etc.
