**Categories:**

Dear Sirs,

I wish to object to this application.

1. We are now seeing container vehicles arriving in Marsh Gardens they turn right towards the doctors surgery and reverse back damaging the newly surface road and pavement trying to navigate a very tight entrance to the works causing traffic hold ups and patients trying to get to the doctors.

We have emergency ambulances regular coming to the surgery, could be a life or death situation.

Children going to junior school, and infant school in the opposite direction.

There is parking on Marsh Gardens, always full, narrowing the road, causing vehicles to run onto pavements.

One of these vehicles ran over a bollard leaving a hole in the pavement some body could have broken a leg.

I have seen a forklift truck loading in the road from the premises.

Opening hours 7am to 7 pm Monday to Friday Saturday Sunday 7am to 2 pm.

Flats adjacent to premises mainly older people don't need this it should be on a proper Industrial estate.

I strongly object to this application.
