<p>The height of the proposed Bike Bunker in front of these premises will be excessive, although the roof is pitched the full height is 2 mtrs and will be adjacent to the public highway. It is also inappropriate siting to the avenue.</p> <p>The planning application states no works commenced, while the bunker has not been started the foundation and surrounding wall has already been laid.</p> <p>This property has already had planning permission for major works which has affected the neighbourhood and the views from neighbours properties, the Bike Bunker will further limit views and will be an eye sore.</p>
