<p>I must object to this "new" application which is actually just an amended application to 2022/92100 which was refused by planning committee on 22nd June 2023!!!!</p> <p>My main point is traffic congestion and safety for pedestrians along with vehicles on moor lane. This road is already difficult to navigate up and down due to parked cars constantly down one side, but often on both sides. It is near impossible to drive up/down Moor lane without having to stop to let other vehicles pass you.</p> <p>Furthermore. Moor lane will also be subject to more residential vehicles due to permission for the former shoulder of mutton public house granted for 5 apartments at the top of moor lane AND at the bottom of moor lane the dancing house having permission granted for a further 10 flats. That's 15 more residential properties on moor lane which will significantly add to traffic already without this proposal.</p> <p>I vehemently object to this application which I believe has an added interest by Kirklees council who I do not believe have been objective as they are an interested party allowing access across council owned land to the development and access via council owned property for works.</p>
