<p>I have lived in the area since 97 and jt used to be very quiet. As traffic has built up it has got a lot worse. I have always had issues with the lanes and the amount of traffic using them. There are lots of children around in foot especially at the Dancing house and there have been bear misses with the entry and exits from both directions and the sharp bend by the cafe is notorious as traffic ends up on the wrong side of the road tribe to avoid others and vehicles parked on the double yellows they don't care. It will be busier noisier abs more dangerous. The environment in this area is a conservation one and more housing should not be squashed in. Think of the extra vehicles to each property ..it has been rejected before and should again.</p>
