User comments

Type of comment: An objection	
Do you wish your comments to be published on the website anonymously?	<input type="checkbox"/> Yes
<p>I refer you back to application 2022/92100 which has recently been refused for the same site. I would presume that ALL objections on this application (connected application) will also be used when adding the objections and that this will again need to go before the planning committee.</p> <p>I have not seen any signs posted locally making residents aware of a NEW application. My previous objections and reasons all still stand and I wish you to use these once again. Please carry these forward and link the previous application which was refused to this one when considering the application.</p>
