Dear Madam

**Work to TPO(s) HU1/74  
108, Meltham Road, Lockwood, Huddersfield, HD4 7BQ**

I have received your application for the above address and would inform you that the requested tree work does not require consent. The reason for this is that the lime tree in the front garden is too young to be protected by the area order HU1/74 and there is no record of any planning condition that would extend to its protection due to a replant condition. Also the conifer tree is not a species offered protection under this order therefore, at present you are able to manage them as you see fit.

Yours faithfully

M Moss  
Arboricultural Officer  
Kirklees Planning Dept.
