TO WHOM IT MAY CONCERN

We have no objection to the church being converted into TWO dwellings.

However, we **strongly object** to the car-park being created right up to the boundary wall with our house (24 Selbourne Road, WF12 9NY) because it:

- affects our privacy and
- affects the continuous greenery along this boundary wall (the boundary wall runs behind all the even numbered Selbourne Road houses) for wildlife.

There MUST be at least a few metres of soft landscaping from the boundary wall with laurels to provide a screen as per the attached sketch - there is no need for parking provision for SEVEN cars for 2 dwellings- TWO car-parking slots per dwelling is sufficient with an extra one for guests.

So, in summary, need to remove the 2 car parking slots adjacent to the boundary wall and replace them with soft landscaping and laurels.

Kind Regards,
