

Appendix A – Climate Change Statement

Climate Change Statement for Planning Applications

Part 1: Applicant details

Name of applicant/agent	TOM WARD
Site Address	46 BEAUMONT PARK ROAD, HUDDERSFIELD, HD4 5JP
Description of Development	PROPOSED SIDE EXTENSION, CANOPY & ALTERATIONS.

Part 2: Climate Change Mitigation measures

Please respond to the following questions considering the measures set out in the Climate Change Guidance note:

Q1: What measures have been/will be taken to reduce the energy demand associated with your proposed development beyond the minimum required in Building Regulations? (See section 2)

Ensuring that building service controls for gas boiler & management systems are user friendly, efficient & up to date.

Q2: What measures have been/will be taken to limit the carbon consumed through the implementation and construction processes, e.g. by reusing existing on-site materials or sourcing materials locally? (See section 3)

Sourcing materials locally.
Selecting materials that have a long life & require little maintenance.

Q3: What measures have been/will be taken to utilise renewable or low carbon energy sources? (See section 4)

Local area energy networks.

Q4: What measures have been/will be taken to ensure the building design and layout has been optimised to energy efficiency beyond the minimum requirements in Part L of the Building Regulations ? (See section 5)

Extra insulation of walls, roofs & floors.

Q5: What measures have been/will be taken to reduce potential impacts of flooding associated with your proposed development? (See section 6)

N/A Not in flood risk zone.

Q6: What measures have been/will be taken to reduce water stress associated with your proposed development? (e.g. Water retention and minimisation measures) (See sections 7 and 8)

Water-efficient toilets.

Rainwater Harvesting.

Q7: What measures have been/will be taken to provide biodiversity net gains? (See section 8)

Use of drought resistant plants.

Q8: What measures have been/will be taken to reduce air pollution associated with your proposed development? (See section 9)

Locally Sourced Materials.
