<p>The proposed access to the site is in a very narrow section of an increasingly busy road which includes a bus route, fast moving traffic, large lorries and agricultural vehicles. There is only a narrow footpath on the opposite side of the road to the site. Consequently pedestrians have to step onto the road to pass one another.</p> <p>The access onto Cumberworth Lane from residential properties on existing lanes near the proposed site, along with vehicular access to the rear of the Church (which is a Grade 2 listed building) and Manse is already hazardous as a result of the increasing amount of traffic and speed of travel.</p>
