

Species Enhancement statement

Proposed first floor side extension at 47 Oddfellows Street Scholes BD19 6NX

The property falls within an established residential area and the works comprise of a first floor side extension over the garage and dining room therefore there will be no loss of any wildlife amenity.

In line with Government policy it is proposed to provide the following species enhancements on the property, these will consist of a RSPB Retro fit Swift Nesting Box on the south elevation and a Fortecrete Sparrow Terrace fitted under the eaves of the existing house on the west elevation.

The locations of the proposed nesting boxes are indicated on drawing No2

I trust that this will be adequate in this instance.
