

I understand 25 Station Rd has been a listed building since 1983.

25 Station Rd is a 1 bedroom flat currently above 23 Station Rd which is a computer repair business.

The rear of the building backs on to the memorial gardens, the windows facing the gardens are not affected by this application.

The kitchen and bathroom windows are on the opposite side of the building facing Station Rd. The gable end window faces into Holmfirth.
