

**Consultation Response from KC,
Highways Development Management**

2023/92504 verge at, Lindley Moor Road, Saledine Nook, Huddersfield, HD3 3XS

Prior notification for installation of telecommunications proposed arqiva smart metering 3 no. sector antennas at 21m mean mounted on proposed 22.5m streetworks pole, arqiva smart metering 1no. GPS antenna at 4.15m mean mounted on proposed streetworks pole, arqiva smart metering 1no. 3g OMNI antenna at 3.75m mean mounted on proposed streetworks pole, arqiva smart metering equipment enclosure to be installed on a concrete base, arqiva smart metering meter cabinet to be installed on a concrete base

Date Responded: 12/09/2023.

Responding Officer: D. Stainsby

Responding Ref: K2-6SW/6

RECOMMENDATION

No objection subject to a construction management plan and maintenance plan being agreed.

The site is located on a wide central refuge and is set back far enough to not to impact visibility splays at the adjacent roundabout junction.

As a result, the site is acceptable on Highway Safety grounds and Highways DM would not object to the proposals.

However, a condition requesting a construction management plan for the installation of the equipment and a maintenance plan for the ongoing maintenance of the equipment will be required.

The siting of a crane within the highway adjacent to this junction will cause an obstruction and require traffic management.

The presence of the adjacent roundabout junction at this location will also need to be addressed in the construction management plan
