Comments

The submitted plan from edward architecture dated August 2023 Ref P013 RevA shows the location of two Thorn Lighting Oslys 2 Area LED 104(W) floodlight with one mounted on a 5m column and the other mounted on the existing fork lift truck stall.

Due to the location and shielding offered by the existing building, we do not consider there to be the potential for any loss of amenity and therefore have no objection to permission being granted for this application.
