<p>This is a terraced house in a quiet residential street with elderly people living near by as well as in my house and a dormer at the front will not be inline with our street and it will look directly in to my property and we all ready struggle with parking on our street.three flats is just not viable.this is not a location for a hmo.aswell as well as trees on the street it's not in line for the location.aswell as the loss of privacy,overshadowing design,highway safety,traffic and parking and the noise it will create.we have 90 year old couple who live more or less opposite and are terrified with all the issues I have raised.please do not allow this planning application to go ahead.</p>
