Dear sir/madam

Northern Powergrid – New Connections Scheme at Bog Green Lane, Upper Heaton
Huddersfield HD5 0PS
Notice under Electricity Act 1989: Part 1, section 37.

I hereby give notice of the intention to install a section of overhead line at the above location. Under the provisions of Part 1 s.37 of the Electricity Act 1989 this will not require the consent of the Secretary of State under s.37(1) by virtue of subsection (2);

(2) Subsection (1) above shall not apply—

(a) in relation to an electric line which has a nominal voltage not exceeding 20 kilovolts and is used or intended to be used for supplying a single consumer;

I have attached a plan indicating (coloured red) the poles and overhead line to be installed at this location for the new supply to the single consumer.

I would be obliged for your written confirmation to the above at your earliest convenience.

I thank you for your help in this matter and look forward to your reply.

Yours faithfully,

Philip Watkinson MRICS
Senior Surveyor

For and on behalf of Northern Powergrid
