<p>Spring Lane is totally unsuitable for the extra traffic generated by this application. Sounds echo around the valley and the noise from music and fireworks generated from events taking place up to 3 times a week late at night will be intolerable to people living within a 2 mile radius.</p> <p>The site is visible from Spring Lane and the footpaths that run from Spring Lane to Butterley Lane and from the hills above.</p> <p>There are no signs on the perimeter of the property indicating there is a planning application. I only found out by word of mouth. The notation on the drawings is illegible, seeming to be in oriental script.</p> <p>The area to the South and East is Green Belt, of high landscape value</p>
