| <p>I am concerned that this application will potentially cause a great degree of noise pollution and disturbance as a result of its newly proposed usage. We would not welcome this level of disturbance in our community which I understand in high season could be as much as 3 times a week. Currently this is a relatively quiet peaceful community with a respect for nature and tranquility which in this case would disrupt that current status.</p> <p>Thank you</p> <p>Please give this comment your due consideration.</p> |     |
