<p>Dear Sir/Madam</p> <p>I would like to comment on this proposed plan to construct a care home.</p> <p>I am highly concerned of the proposed plan due to the high level of traffic already with there being two schools within the area.</p> <p>This already creates a mass of cars being parked along Oxford road and reservoir street.</p> <p>This disrupts the residential and I can only imagine this will increase traffic flow with there being a care home in the area too.</p> <p>The school children walk along these roads and cut through the reservoir street to get to Oxford road and to St John fishers school.</p> <p>I am concerned for the pedestrian safety as this heavy traffic will also impose a huge risk to them. Cars will be pulling straight out from Brunswick street and with entry/exits imposed on reservoir street this will create a build of traffic directly outside my house.</p> <p>I do not like the idea of red brick being used for the construction of this care home as this goes completely against the stone use of buildings and homes in this area. It would look horrible to commend to this plan and ruin the look of the streets.</p> <p>Please consider my objections and I look forward to hearing from you soon.</p> <p>Regards.</p>
