Dear Mr Tom Hunt	
I contact you with regards to the proposed plans for 388 Bradley Rd	
<p>I'm in favour of the plans after having to stay out due to studying I have recently moved back to Huddersfield with my family and the home as it stands doesn't have enough space for 5 adults as well as 3 under 16 years olds who come to stay with us during all school holidays and every weekend. The proposed plans are for a ground floor extension and set back second floor to the back of the house. Which in my opinion should not affect anyone else especially the neighbours at number 390 who's own house is already extended beyond our house. We are a a hard working family wanting to make extra living space for our family to be able to enjoy and live comfortably. In the current crisis of high rents and mortgages and bills hitting the roof all we are doing is trying to live together comfortably I don't see how our home being extended towards the back is going to cause any problems. The neighbour worries about loosing the view of the golf course through her window should maybe consider cutting the huge trees at the end of her own garden rather than relying on looking through our garden invading our privacy. The neighbours own garden is surrounded all round by huge trees and hedges and if anything blocking light and sun from other neighbours. In my opinion the comments already left by the neighbour along with their niece is exaggerated and makes no sense why are relatives who don't even live on the street commenting on here just to cause a nuisance. Please do look into to history of complaints and our other applications with comments by this family to understand the extent of their behaviour.</p>
