Regarding Planning Application Number: 2023/92795 - 37 Upper George Street

Dear Planning Officer,

I am writing this email on behalf of the Usman Mosque Committee Members (32 Upper George Street). We have grave concerns regarding the application of turning number 37 Upper George Street into building a single story extension and converting their existing dwelling into a house of multiple occupation. The proposed application is located on a busy road in front of the mosque which raises serious concerns of the increased traffic which will occur if the proposed application is successful. Also most of the people living on the street are pensioners and we believe it will have a negative impact due to disturbances and noises caused by the addition of 12 new dwellings. This will almost double the number of residents in the already congested street. Therefore parking will be a huge issue as there is not enough parking for additional vehicles. We kindly request the planning Committee consider these important issues when reviewing the application.

Yours Sincerely,
