Subject: Consultation Response 2023/92804 Power line works Lane Side, Kirkheaton, Huddersfield

The proposed works are improvements to an overhead power line.

I have checked the West Yorkshire Historic Environment Record and the power line does not impact on any known heritage assets. There is one listed building on the opposite side of the road but there will be no change to the line at this point so the impact will be neutral.

In summary having checked our records (the West Yorkshire Historic Environment Record) there is currently no known significant archaeological potential at the location of the proposed development.

Yours

Glyn
