Thank you for submitting my objection.

I would also like to make you aware of the following as I am questioning the reliability of some supporting information.

Supporting Information id1011207 5.0 statement of community involvement - it is documented that the ward councillors were informed and invited to an in-person meeting but did not receive any response, I do not believe this to be the case and have contacted the councillors for their feedback.

In addition, 4.3 of same document (id1011207) states that 163 letters and leaflets were sent to local residents and businesses on 30th May as a consultation exercise informing of proposals and inviting comments, stating the letter was to inform the general public of the proposed development with an option to submit comments.

There was apparently a total of six responses received back which I find hard to believe.

We live on Thatchers Way and neither myself nor my neighbours, or indeed any local people we know, who have been involved since 2019 initial plans, were contacted.

I, therefore, question the accuracy, reliability and soundness of these statements from the applicants and feel that as residents of Gomersal we are not being considered fairly.

Regards

n
